### D001 Creation and Management of Cultural Resource Data

**Statewide Result Area:** Improve cultural and recreational opportunities throughout the state  
**Statewide Strategy:** Provide stewardship of cultural and recreational assets

#### Expected Results

State and federal law mandates that DAHP be the central repository of cultural resource data. DAHP records approximately 2,000 archaeological sites and 1700 historic properties per year. Individuals conducting research on various historical topics often use DAHP's archaeological and historic site information. Federal, state, and local agencies as well as tribal governments use this data for environmental compliance purposes.

### D003 Preserving and Enhancing Historic Places

**Statewide Result Area:** Improve cultural and recreational opportunities throughout the state

**Statewide Strategy:** Provide stewardship of cultural and recreational assets

#### Expected Results

The establishment of Certified Local Governments, in conjunction with the federal tax incentive program, and the state special valuation property tax program, has created million of dollars of investment in historic properties listed on the National Register of Historic Places or local heritage registers for the state program. DAHP assists with establishing Certified Local Governments, and providing technical assistance to those specially designated local historic preservation commissions. DAHP lists properties on the National Register of Historic Places so that properties can take advantage of the federal tax incentive program and is required to review tax incentive applications to ensure the work meets federal historic rehabilitation standards.
